

Quick Guide: How to Fill Out the New Domain Application

1. Download the Form

- Download the latest version of the application from:
<https://unet.com.mk/Upload/Email/BaranjeEn.pdf>

2. Fill Out the Form Electronically

- Open the form on your computer (**do not print it first**)
- Complete all required fields
- Verify that all information is accurate

3. DO NOT Flatten or Scan the Form

- The form must remain interactive and editable (**not scanned or flattened**)
- “Dead documents” (printed, signed, and scanned forms) are **not accepted**, unless submitted as an original document

4. Choose One of the Submission Methods:

Option A – Digital Signature (Recommended)

- Apply a valid digital signature to the completed form
- Submit it via email

Option B – Manual Signature

- Print the completed form
- Sign it and stamp it if required
- Submit it as an original document along with the necessary documentation

5. Submit the Form

- Via email (for digitally signed forms), or
- As original documents (for manually signed forms)

Important Notes:

- The new form is mandatory for all domain-related requests
- Exceptions: DNS changes and renewals may be requested via email
- Incomplete or incorrectly submitted forms may cause delays
